

Training provision in regions with different levels of population density

Extent and structure of training place provision

	Population density in the region							All regions	Correlation: Spearman's rho
	to under 100	100 to under 150	150 to under 200	200 to under 300	300 to under 500	500 to u. 1,000	1,000 and more		
Relative extent of training provision									
> Arithmetical ratio: provision per 100 general school leavers (2006)	59.5	61.9	57.2	59.6	62.0	65.2	67.2	61.3	0.05
> Arithmetical ratio: provision per 100 school leavers not entitled to progress to higher education (2006)	79.0	79.6	74.6	78.6	84.7	93.7	98.5	82.5	0.20
> Places per 100 registered applicants reported to the employment agencies (2007)	67.9	66.6	65.9	72.1	70.3	81.0	80.2	70.9	0.19
Occupational structure of provision (2006)									
> Agriculture, animals, forestry, gardening occup	4%	4%	3%	3%	3%	2%	2%	3%	-0.51
> Mining, mineral mining occupations	0%	0%	0%	0%	0%	0%	0%	0%	-0.05
> Manufacturing occupations	43%	44%	44%	41%	41%	36%	33%	41%	-0.54
> Technical occupations	1%	2%	1%	2%	2%	2%	1%	2%	0.15
> Service sector occupations	48%	48%	49%	52%	53%	58%	63%	52%	0.64
> Occupations for the disabled, not classifiable	4%	2%	2%	2%	2%	2%	1%	2%	-0.26
Total provision	100%	100%	100%	100%	100%	100%	100%	100%	
Number of regions	16	41	31	32	19	20	17	176	

Average proportions in the region classes and the ranking correlations of proportions with population density are stated.
