

1. TITLE OF THE CERTIFICATE (DE) (1)

**Abschlussprüfung im staatlich anerkannten Ausbildungsberuf
Bergbautechnologe/ Bergbautechnologin - Fachrichtung Tiefbautechnik**

(1) in original language

2. TRANSLATED TITLE OF THE CERTIFICATE (EN)(1)

**Final examination in the state-recognized training occupation
mining technologist specialising in underground engineering**

(1) This translation has no legal status.

3. PROFILE OF SKILLS AND COMPETENCES

- commission, operate and service the machines, systems, plant and equipment used in mining technology
- assemble and dismantle the machines, systems, plant and equipment used in mining technology
- handle materials and use control technology
- assess mine workings and analyse the geological conditions
- drive, maintain and ensure the stability and safety of mine workings
- calculate the parameters and requirements for ventilation and air-conditioning and initiate appropriate measures
- implement logistical processes in transportation and materials-handling technology
- assist in prospecting for new deposits
- use heading and extraction methods
- fill with waste rock and landfill material
- commission, decommission and use manriding systems
- observe the regulations for health and safety at work and environmental protection
- follow quality-oriented, team-oriented and process-oriented working practices

4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THE CERTIFICATE (1)

Mining technologists specialising in underground engineering carry out mining technology works in underground and surface mining operations, for example in coal mining, potash and rock-salt mining, ore mining, for underground landfill operators and in other mineral extraction companies.

(1) if applicable

(*) Explanatory notes

This document is designed to provide additional information about the specified certificate and does not have any legal status in itself. The format of the description is based on the following texts: Council Resolution 93/C 49/01 of 3 December 1992 on the transparency of qualifications, Council Resolution 96/C 224/04 of 15 July 1996 on the transparency of vocational training certificates, and Recommendation 2001/613/EC of the European Parliament and of the Council of 10 July 2001 on mobility within the Community for students, persons undergoing training, volunteers, teachers and trainers.

More information on transparency is available at: www.europass.cedefop.eu.int/transparency

5. OFFICIAL BASIS OF THE CERTIFICATE

Name and status of the body awarding the certificate Chamber of Industry and Commerce	Name and status of the national/regional authority providing accreditation/recognition of the certificate Chamber of Industry and Commerce
Level of the certificate (national or international) ISCED 3B	Grading scale / Pass requirements 100-92 points = 1 = excellent 91 - 81 points = 2 = good 80 - 67 points = 3 = average 66 - 50 points = 4 = pass 49 - 30 points = 5 = poor 29 - 0 points = 6 = fail A total of at least 50 grade points are required to pass the examination.
Access to next level of education / training State certified technical engineer specialising in mining technology	International agreements In the field of vocational training, joint declarations on the comparability of qualifications obtained in the respective vocational training systems have been signed on the basis of bilateral agreements concluded between Germany and France and between Germany and Austria.
Legal basis Ordinance on Initial Vocational Education and Training in the Occupation of mining technologist specialising in underground engineering of 06/04/2009 (Federal Law Gazette, Part I, p 1240) Resolution of the Standing Conference of the Ministers of Education and Cultural Affairs of the Länder in the Federal Republic of Germany, KMK, of 23.04.2009), (Federal Gazette, No 120a of 14.08.2009)	

6. OFFICIALLY RECOGNISED WAYS OF ACQUIRING THE CERTIFICATE

Final examination administered by the competent body: <ol style="list-style-type: none"> 1. after completion of dual training in a company and at part-time vocational school (normal procedure) 2. after retraining in a recognized training occupation 3. as an external examination for working people without formal vocational qualifications or persons who have been trained at full-time vocational schools or other vocational training institutions
Additional information Entry requirements: Entry requirements are not governed by legislation; as a rule, young people are admitted after completing (nine or ten years of) general education. Duration of training: 3 years. Training in the "dual system": Teaching of the knowledge, skills and competences needed for an occupation is based on the typical requirements of work and business processes and prepares the trainees for a specific job. The training is provided in a company and at part-time vocational school: In the company, the trainees acquire practical skills in a real working environment. On one or two days per week, the trainees attend part-time vocational school, where they are taught general and vocational knowledge related to their training occupation.
