

1. TITLE OF THE CERTIFICATE (DE) (1)

**Abschlussprüfung im staatlich anerkannten Ausbildungsberuf
Gießereimechaniker / Gießereimechanikerin - Fachrichtung Maschinenformguß**

(1) in original language

2. TRANSLATED TITLE OF THE CERTIFICATE (EN)(1)

**Final examination in the state-recognized training occupation
Foundry mechanic – specialised in machine moulding**

(1) This translation has no legal status.

3. PROFILE OF SKILLS AND COMPETENCES

- Recognise tasks from construction drawings and related technical documentation
- Understand and apply health and safety at work measures
- Plan work procedure within the production process
- Assemble pattern equipment in conformity with drawings and mould requirements
- Use tools, machinery, equipment, jigs and fixtures for the mechanical preparation of mould materials and the production of moulds and cores
- Operate and monitor production machinery and equipment for moulding and casting while according due consideration to safety regulations
- Cast materials, monitor and check smelting
- Carry out and check smelting treatments
- Secure the quality of the castings by sampling and testing
- Identify malfunctions in production plants and production facilities
- Initiate measures to remedy malfunctions
- Maintain production facilities

4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THE CERTIFICATE (1)

Foundry mechanics specialising in machine moulding frequently work in medium-sized or large light-metal foundries or in iron foundries.

(1) if applicable

(*) Explanatory notes

This document is designed to provide additional information about the specified certificate and does not have any legal status in itself. The format of the description is based on the following texts: Council Resolution 93/C 49/01 of 3 December 1992 on the transparency of qualifications, Council Resolution 96/C 224/04 of 15 July 1996 on the transparency of vocational training certificates, and Recommendation 2001/613/EC of the European Parliament and of the Council of 10 July 2001 on mobility within the Community for students, persons undergoing training, volunteers, teachers and trainers.

More information on transparency is available at: www.europass.cedefop.eu.int/transparency

Access to next level of education / training Certified industrial foreman in foundry casting, certified industrial foreman in steelworking technology, certified metalworking foreman	International agreements In the field of vocational training, joint declarations on the comparability of qualifications obtained in the respective vocational training systems have been signed on the basis of bilateral agreements concluded between Germany and France and between Germany and Austria.
Legal basis Ordinance on Initial Vocational Education and Training in the Occupation of Foundry mechanic – specialised in machine moulding of 05/28/1997 (Federal Law Gazette, Part I, p 1260) Resolution of the Standing Conference of the Ministers of Education and Cultural Affairs of the Länder in the Federal Republic of Germany, KMK, of 25.04.1997), (Federal Gazette, No 200a of 25.10.1997)	

6. OFFICIALLY RECOGNISED WAYS OF ACQUIRING THE CERTIFICATE

Final examination administered by the competent body: <ol style="list-style-type: none"> 1. after completion of dual training in a company and at part-time vocational school (normal procedure) 2. after retraining in a recognized training occupation 3. as an external examination for working people without formal vocational qualifications or persons who have been trained at full-time vocational schools or other vocational training institutions
Additional information Entry requirements: Entry requirements are not governed by legislation; as a rule, young people are admitted after completing (nine or ten years of) general education. Duration of training: 3,5 years. Training in the "dual system": Teaching of the knowledge, skills and competences needed for an occupation is based on the typical requirements of work and business processes and prepares the trainees for a specific job. The training is provided in a company and at part-time vocational school: In the company, the trainees acquire practical skills in a real working environment. On one or two days per week, the trainees attend part-time vocational school, where they are taught general and vocational knowledge related to their training occupation.
