

1. TITLE OF THE CERTIFICATE (DE) (1)

**Abschlussprüfung im staatlich anerkannten Ausbildungsberuf
Rohrleitungsbauer/Rohrleitungsbauerin**

(1) in original language

2. TRANSLATED TITLE OF THE CERTIFICATE (EN)(1)

**Final examination in the state-recognized training occupation
Pipeline fitter (m/f)**

(1) This translation has no legal status.

3. PROFILE OF SKILLS AND COMPETENCES

- Invoice for services provided and conduct official handover of vacated job site
- Use equipment and machinery
- Erect work, load bearing and protective scaffolding and calibrate plant components and construction machinery sub-assemblies
- Carry out excavation work, line construction pits and trenches, fill in and compress earth, and build embankments
- Carry out open and closed drainage for soil-course water and groundwater
- Process pressure pipes made of metallic and synthetic materials
- Fit and set up pressure pipelines and accessories and fittings made of different materials for the transportation of liquid and gaseous media
- Work on operational pressure pipelines for gas, water and district heating
- Lay branch line connections to individual buildings
- Protect pressure pipelines against corrosion and chemical influences
- Inspect and disinfect pipelines
- Build pipelines using techniques not involving trenches
- Overhaul and maintain pressure pipelines
- Build cable ducts and lay cables and cable pipes
- Build manhole constructions using prefabricated parts, concrete and masonry
- Carry out related tasks to restore the road surface
- Carry out related tasks in the field of construction
- Work autonomously either alone or in conjunction with others to execute works on the basis of technical documentation and work orders
- Plan and coordinate work
- Coordinate work with those involved in the construction works
- Set up construction sites
- Initiate measures to safeguard the work process and ensure safety, health and safety at work and environmental protection at the construction site
- Check the quality of the work for any errors in execution, document works
- Carry out quality assurance measures

4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THE CERTIFICATE (1)

Pipeline fitters mainly work for civil engineering companies. They also find employment with companies involved in energy production and distribution (oil, natural gas) and in power supply (gas, water, district heating).

(1) if applicable

^(*) Explanatory notes

This document is designed to provide additional information about the specified certificate and does not have any legal status in itself. The format of the description is based on the following texts: Council Resolution 93/C 49/01 of 3 December 1992 on the transparency of qualifications, Council Resolution 96/C 224/04 of 15 July 1996 on the transparency of vocational training certificates, and Recommendation 2001/613/EC of the European Parliament and of the Council of 10 July 2001 on mobility within the Community for students, persons undergoing training, volunteers, teachers and trainers.

More information on transparency is available at: www.europass.cedefop.eu.int/transparency

Level of the certificate (national or international) ISCED 3B	Grading scale / Pass requirements 100-92 points = 1 = excellent 91 - 81 points = 2 = good 80 - 67 points = 3 = average 66 - 50 points = 4 = pass 49 - 30 points = 5 = poor 29 - 0 points = 6 = fail A total of at least 50 grade points are required to pass the examination.
Access to next level of education / training Certified foreman, certified energy networks foreman, certified metalworking foreman	International agreements In the field of vocational training, joint declarations on the comparability of qualifications obtained in the respective vocational training systems have been signed on the basis of bilateral agreements concluded between Germany and France and between Germany and Austria.
Legal basis Ordinance on Vocational Education and Training in the building industry of 06/02/1999 (Federal Law Gazette, Part I, p 1102) Resolution of the Standing Conference of the Ministers of Education and Cultural Affairs of the Länder in the Federal Republic of Germany, KMK, of 05.02.1999), (Federal Gazette, No 214a of 12.11.1999)	

6. OFFICIALLY RECOGNISED WAYS OF ACQUIRING THE CERTIFICATE

Final examination administered by the competent body: <ol style="list-style-type: none"> 1. after completion of dual training in a company and at part-time vocational school (normal procedure) 2. after retraining in a recognized training occupation 3. as an external examination for working people without formal vocational qualifications or persons who have been trained at full-time vocational schools or other vocational training institutions
Additional information Entry requirements: Entry requirements are not governed by legislation; as a rule, young people are admitted after completing (nine or ten years of) general education. Duration of training: 3 years. Training in the "dual system": Teaching of the knowledge, skills and competences needed for an occupation is based on the typical requirements of work and business processes and prepares the trainees for a specific job. The training is provided in a company and at part-time vocational school: In the company, the trainees acquire practical skills in a real working environment. On one or two days per week, the trainees attend part-time vocational school, where they are taught general and vocational knowledge related to their training occupation.
