

1. TITLE OF THE CERTIFICATE (DE) (1)**Abschlussprüfung im staatlich anerkannten Ausbildungsberuf
Spezialtiefbauer/Spezialtiefbauerin**

(1) in original language

2. TRANSLATED TITLE OF THE CERTIFICATE (EN)(1)**Final examination in the state-recognized training occupation
Special civil engineering works builder**

(1) This translation has no legal status.

3. PROFILE OF SKILLS AND COMPETENCES

- Work autonomously either alone or in conjunction with others to execute works on the basis of technical documentation and work orders
- Plan and coordinate work and coordinate work with those involved in the construction works
- Set up construction sites and initiate measures to safeguard the work process and ensure safety, health and safety at work and environmental protection at the construction site
- Check the quality of the work for any errors in execution, document works
- Carry out quality assurance measures
- Invoice for services provided and conduct official handover of vacated job site
- Use equipment and machinery
- Erect work, load bearing and protective scaffolding and calibrate plant components and construction machinery sub-assemblies
- Carry out excavation works
- Line construction pits and trenches
- Fill in and compress earth and build embankments
- Carry out water retention measures
- Investigate the site ground, take, examine and label soil samples and keep soil course records
- Create embankments for such purposes as preparation for load-bearing structures, examining the ground at the site, lowering the groundwater and infeeding water
- Use drilling equipment and apply different drilling procedures
- Excavate boreholes to form wells
- Lay pipelines and attach the corresponding fittings
- Fit prefabricated units used in well construction and special civil engineering works
- Install water transportation systems
- Construct bulkheads for ground water measuring systems
- Construct piles and anchor systems
- Carry out injection works
- Carry out pile-driving, jolt-compaction and vibro-compaction works
- Maintain the plants, equipment and machinery used for special civil engineering works
- Improve the quality of the ground at the site
- Carry out related tasks in the field of building construction

4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THE CERTIFICATE (1)

Special civil engineering works builders find employment at companies within the construction industry, e.g. civil engineering, special civil engineering and water engineering companies.

(1) if applicable

(*) Explanatory notes

This document is designed to provide additional information about the specified certificate and does not have any legal status in itself. The format of the description is based on the following texts: Council Resolution 93/C 49/01 of 3 December 1992 on the transparency of qualifications, Council Resolution 96/C 224/04 of 15 July 1996 on the transparency of vocational training certificates, and Recommendation 2001/613/EC of the European Parliament and of the Council of 10 July 2001 on mobility within the Community for students, persons undergoing training, volunteers, teachers and trainers.

More information on transparency is available at: www.europass.cedefop.eu.int/transparency

5. OFFICIAL BASIS OF THE CERTIFICATE

Level of the certificate (national or international) ISCED 3B	Grading scale / Pass requirements 100-92 points = 1 = excellent 91 - 81 points = 2 = good 80 - 67 points = 3 = average 66 - 50 points = 4 = pass 49 - 30 points = 5 = poor 29 - 0 points = 6 = fail A total of at least 50 grade points are required to pass the examination.
Access to next level of education / training Certified foreman, state certified technician specialised in construction technology, state certified technician specialised in drilling technology	International agreements In the field of vocational training, joint declarations on the comparability of qualifications obtained in the respective vocational training systems have been signed on the basis of bilateral agreements concluded between Germany and France and between Germany and Austria.
Legal basis Ordinance on Initial Vocational Education and Training in the Occupation of Special civil engineering works builder of 06/02/1999 (Federal Law Gazette, Part I, p 1102) Resolution of the Standing Conference of the Ministers of Education and Cultural Affairs of the Länder in the Federal Republic of Germany, KMK, of 05.02.1999), (Federal Gazette, No 214a of 12.11.1999)	

6. OFFICIALLY RECOGNISED WAYS OF ACQUIRING THE CERTIFICATE

Final examination administered by the competent body: <ol style="list-style-type: none"> 1. after completion of dual training in a company and at part-time vocational school (normal procedure) 2. after retraining in a recognized training occupation 3. as an external examination for working people without formal vocational qualifications or persons who have been trained at full-time vocational schools or other vocational training institutions
Additional information Entry requirements: Entry requirements are not governed by legislation; as a rule, young people are admitted after completing (nine or ten years of) general education. Duration of training: 3 years. Training in the "dual system": Teaching of the knowledge, skills and competences needed for an occupation is based on the typical requirements of work and business processes and prepares the trainees for a specific job. The training is provided in a company and at part-time vocational school: In the company, the trainees acquire practical skills in a real working environment. On one or two days per week, the trainees attend part-time vocational school, where they are taught general and vocational knowledge related to their training occupation.
