- Conduct the necessary measures regarding occupational safety and health and accident prevention in cooperation with the departments and persons responsible for occupational safety in the company; observe environmental regulations

4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THE CERTIFICATE

Certified master construction machinery mechanics work as senior-level employees in the building industry, particularly in building construction companies, bridge, tunnel, road or shaft construction companies and in water engineering, in construction machinery hire or in gardening and landscaping companies. They independently discharge complex tasks and responsibilities related to planning, management, organization and supervision using the control instruments of business and personnel management. They plan and coordinate workflows in building projects, provide instruction for skilled staff and assume responsibility for training in the company. They can also be self-employed and manage a company in the building trade.

(*) Explanatory notes

This document is designed to provide additional information about the specified certificate and does not have any legal status in itself. The format of the description is based on the following texts: Council Resolution 93/C 49/01 of 3 December 1992 on the transparency of qualifications, Council Resolution 96/C 224/04 of 15 July 1996 on the transparency of vocational training certificates, and Recommendation 2001/613/EC of the European Parliament and of the Council of 10 July 2001 on mobility within the Community for students, persons undergoing training, volunteers, teachers and trainers.

More information on transparency is available at: www.cedefop.eu.int/transparency
