

1. TITLE OF THE CERTIFICATE (DE) (1)

**Gesellenprüfung im staatlich anerkannten Ausbildungsberuf
Elektroniker für Gebäudesystemintegration und Elektronikerin für
Gebäudesystemintegration**

(1) in original language

2. TRANSLATED TITLE OF THE CERTIFICATE (EN)(1)

**journeyman's examination in the state-recognized training occupation Electronics
technician for building system integration**

(1) This translation has no legal status.

3. PROFILE OF SKILLS AND COMPETENCES

- Analyse technical building systems
- Measure and evaluate physical parameters of building systems engineering; identify errors and initiate measures
- Design and project the integration of technical building plants and systems
- Carry out works relating to cross-cutting technical planning and the integration of technical building plants and systems
- Assemble and install
- Integrate components and functions of technical building plants and systems
- Parameterise, commission and hand over technical building plants and systems
- Programme, set up and test software,
- Hand over and document projects
- Maintain, repair and optimise
- Check and comply with data privacy and information security concepts
- Check and assess protective measures for electrical plants and equipment.

4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THE CERTIFICATE (1)

Electronics technicians for building system integration work for electrical engineering and information technology companies in the craft trades sector. They plan, design, set up, change, network, maintain and repair technical building systems. Their tasks encompass all technical systems occurring within a building and the integration of such systems. They are able to process, analyse and apply data relating to technical building parameters. They also find employment with industrial companies, IT systems firms and technical buildings suppliers.

(1) if applicable

(*) Explanatory notes

This document is designed to provide additional information about the specified certificate and does not have any legal status in itself. The format of the description is based on the following texts: Council Resolution 93/C 49/01 of 3 December 1992 on the transparency of qualifications, Council Resolution 96/C 224/04 of 15 July 1996 on the transparency of vocational training certificates, and Recommendation 2001/613/EC of the European Parliament and of the Council of 10 July 2001 on mobility within the Community for students, persons undergoing training, volunteers, teachers and trainers.

More information on transparency is available at: www.europass.cedefop.eu.int/transparency

5. OFFICIAL BASIS OF THE CERTIFICATE

<p>Name and status of the body awarding the certificate</p> <p>Chamber of Crafts and Trades</p>	<p>Name and status of the national/regional authority providing accreditation/recognition of the certificate</p> <p>Chamber of Crafts and Trades</p>
<p>Level of the certificate (national or international)</p> <p>ISCED 354 This qualification corresponds to Level 4 of the German and European Qualifications Framework; cf. publication from 1 August 2013 (BANz AT 20/11/2013 B2)</p>	<p>Grading scale / Pass requirements</p> <p>100-92 points = 1 = excellent 91 - 81 points = 2 = good 80 - 67 points = 3 = average 66 - 50 points = 4 = pass 49 - 30 points = 5 = poor 29 - 0 points = 6 = fail</p> <p>A total of at least 50 grade points are required to pass the examination.</p>
<p>Access to next level of education / training</p> <p>Master craftsman qualification in electrical engineering, state certified technician in the relevant specialisms, specialist clerk for commercial management</p>	<p>International agreements</p> <p>In the field of vocational training, joint declarations on the comparability of qualifications obtained in the respective vocational training systems have been signed on the basis of bilateral agreements concluded between Germany and France and between Germany and Austria.</p>
<p>Legal basis</p> <p>Ordinance on Initial Vocational Education and Training in the Occupation of Electronics technician for building system integration of 03/30/2021 (Federal Law Gazette, Part I, p 662)</p>	

6. OFFICIALLY RECOGNISED WAYS OF ACQUIRING THE CERTIFICATE

<p>Final examination administered by the competent body:</p> <ol style="list-style-type: none"> 1. after completion of dual training in a company and at part-time vocational school (normal procedure) 2. after retraining in a recognized training occupation 3. as an external examination for working people without formal vocational qualifications or persons who have been trained at full-time vocational schools or other vocational training institutions
<p>Additional information</p> <p>Entry requirements: Entry requirements are not governed by legislation; as a rule, young people are admitted after completing (nine or ten years of) general education.</p> <p>Duration of training: 3,5 years.</p> <p>Training in the "dual system": The knowledge, skills and competences delivered in a training occupation are based on the typical requirements of work processes and prepare the trainees for a specific job as well as for further qualifications. The training is provided in a company and at vocational school: Trainees spend 75% of the duration of training in the company. Here they acquire practical skills in a real working environment. Trainees complete 25% of training time in vocational school where they are taught general and vocational knowledge as it relates to their training occupation.</p> <p>More information is available at: www.berufenet.de www.europass-info.de</p>
