## 6. OFFICIALLY RECOGNIZED WAYS OF ACQUIRING THE CERTIFICATE

The certificate is acquired through passing the examination administered by the body mentioned in section 5 above. Before sitting the examination, candidates must furnish proof of

1. Successful completion of training for a recognized occupation in the field in which the examination is administered, followed by at least two years of practical work related to the qualifications to be obtained or
2. Successful completion of training for another recognized technical or craft occupation, followed by at least six years of practical work related to the qualifications to be obtained including the training period as set out in the training regulations for the occupation or
3. At least five years of relevant practical work or
4. Relevant skills and competences.

Candidates wishing to sit the examination in the fields of lighting and halls must be skilled electricians.

**Additional information**

The skills and competences of which proof is to be furnished in the further training examination are usually acquired during many years of practical work and within the framework of education measures. Courses are offered in preparation for the examination; their duration and content are geared to the different specialist and managerial tasks.

The successful candidate passing the examination has acquired the qualifications required to provide training within the meaning of Section 30(5) of the Vocational Training Act.

Translations of the certificate can be obtained from the body mentioned in section 5 above.
