

## 1. TITLE OF THE CERTIFICATE (DE)

**Zeugnis über die staatliche Prüfung der beruflichen Pflegeausbildung  
Pflegefachfrau/Pflegefachmann**

## 2. TRANSLATED TITLE OF THE CERTIFICATE (EN)

**Certificate of the state examination of vocational nursing training  
for the occupation of registered nurse**

This translation has no legal status

## 3. PROFILE OF SKILLS AND COMPETENCIES

Qualified nurses possess the necessary skills to meet all the nursing needs of people in every age group. They are able to conduct acute inpatient care and deal with outpatient nursing situations autonomously, comprehensively and in a process-oriented manner.

They are able to perform the following tasks in particular:

- Investigate and identify individual nursing requirements, establish a care plan and organise, structure and manage the nursing process
- Carry out and document care including preventative and health promotion measures
- Analyse, evaluate, develop and sustain the quality of nursing care
- Advise, instruct and support patients and their carers in addressing issues regarding health and illness, maintaining and strengthening independent living arrangements and the ability to cope with day-to-day activities
- Activate, restore, foster, stabilise and maintain the individual capabilities of patients within the scope of rehabilitation concepts and in circumstances where cognitive abilities are impaired
- Instigate immediate life-saving measures whilst awaiting the arrival of a doctor and initiate suitable actions in situations of crisis and disaster
- Instruct, advise and support other occupational groups and volunteers involved in nursing situations
- Implement measures of medical diagnostics, treatment or rehabilitation prescribed by a physician
- Employ interdisciplinary communication and cooperation with other occupational groups at a professional level to develop individual, multi-disciplinary and interprofessional solutions for medical conditions and nursing needs and implement these solutions as part of a team
- Develop and justify their personal understanding of nursing in an ethically responsible manner
- Initiate appropriate measures for health and safety at work
- Work in a cost-effective, environmentally friendly and sustainable way
- Use information and communication technologies as necessary.

## 4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THE CERTIFICATE

Qualified nurses work in facilities where preventative, curative, rehabilitative, palliative and social care measures are provided in order to maintain, nurture (or promote), restore or improve the physical and psychological situation of patients of all ages, in institutions where guidance and support is offered across all phases of life and for those individuals needing end-of-life care. Such institutions particularly comprise hospitals, care homes, outpatient nursing services, residential units, rehabilitation clinics, healthcare support services, elderly people's welfare, child welfare, youth welfare and family welfare organisations and integration assistance providers. In addition, they also find employment in psychiatric institutions, private households, information, guidance and assessment centres, as well as in schools and nursery schools and with local government authorities.

### (\*) Explanatory notes

The Certificate supplement provides additional information about the certificate and does not have any legal status in itself.

Its format is based on the Decision (EU) 2018/646 of the European Parliament and of the Council of 18 April 2018 on a common framework for the provision of better services for skills and qualifications (Europass) and repealing Decision No 2241/2004/EC.
