

# Thinking Space 6: Occupations. Research. Future. Impulses from the BIBB Graduate Programme

## — WHAT SITUATION DO WE FACE? —

The requirements of the working world are constantly changing. In order to face current challenges appropriately, we also need insights and impulses from research. With its graduate programme, the BIBB contributes to this, and supports talented doctoral students and post-docs with their innovative research projects in the thematic field of vocational education and training.

# > 30

## — WHAT NEEDS TO BE DONE? —

- > Promoting young researchers =
  - offering adequate opportunities for qualification, **also** in regards to **'soft skills'**
  - facilitating close and responsible **supervision**
  - supporting **exchange** with policy-makers and practitioners
  - expanding **cooperation** with universities and research institutes

ongoing research projects on current topics in the field of vocational education and training by young researchers at the BIBB

## — WHERE CAN I OBTAIN SUPPORT? —

- > Please address your questions about the BIBB Graduate Program to Dr. Judith Offerhaus ([graduertenfoerderung@bibb.de](mailto:graduertenfoerderung@bibb.de))

## — HOW CAN I DEEPEN MY KNOWLEDGE? —

- > Introduction and overview „[Wissenschaftliche Nachwuchsförderung für die Berufsbildung von morgen](#)“, BWP 1/2021
- > Short descriptions of the [doctoral projects](#)
- > Research programs from the junior [research groups](#)

Good vocational education and training needs innovative impulses from research on vocational education and training and thus needs highly skilled young researchers.
