EU-Cambodia Partnership in Education for Green and Digital Jobs

Twinning: Collaboration between the European Union and Cambodia towards Technical Education reforms

Budget
€ 2.5M
36 Months

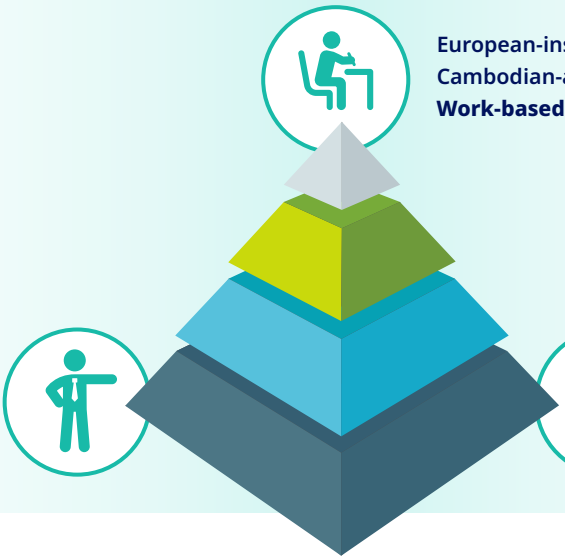
- Twinning brings together **European and Cambodian teachers and civil servants** with the aim of achieving results through peer-to-peer activities.
- The programme aims to **facilitate European investment** by supporting Cambodia's industrial development policy.

Collaboration

800+ DAYS of European civil servants and teachers' expertise to the Cambodian Ministry of Education, Youth and Sport.

945+ DAYS of Cambodian civil servants and teachers spent developing relevant technical and soft skills in Europe.

Components



European-inspired, Cambodian-adapted **Work-based Learning** (WBL)

Pre-service and in-service **teacher development**

Curricula update to low-carbon technology and digital focus

Sectors

- Electricity
- Electronics
- Mechanics
- Food Processing
- Information Technology

2024	2025	2026	2027
Launch	Revised curricula, textbook and master plan	Piloting work-based learning internships	Lessons learned and expansion planning

Outcomes

Fast-tracked STEM Education:

Recognition of technical high school learning towards university credits.

Five Updated Curricula:

Adapted curricula with basic, soft, and technical skills to:

- Attract all genders into STEM.
- Answer to labour market needs.

Private Sector Exposure:

Link between schools and private companies.
