

PAINTING SKILLS ACADEMY
Your career starts here!

Mission and Values

Our Mission

- To enhance and promote the profession of the Painter and Decorator at a National and European level
- To propose European-level standard certifications for the profession
- To develop and increase mobility between European States
- To offer an up-to-date educational offering based on new and emerging industry practices
- To implement the use of technological tools (such as Virtual Reality and Augmented Reality)

PaintingSkillsAcademy (PSA) wants to create a new generation of Painters/Decorators, whose theoretical and practical training will bring them successfully into the European labour market.

Your opportunities

- A challenging and innovative learning environment
- UNIEP – approved courses and workshops
- Guidance to access the labour market provided by the PSA network
- Certificates awarded by UNIEP, promoting high-quality courses in Europe
- To find interesting study and apprenticeships in the field of Painting and Decorating, based on the PSA network

Take advantage of the benefits of PaintingSkillsAcademy (PSA) and realise your future career!

Our Vision

PSA wants to be an Academy of Excellence and a reference point for the Painting profession. Its goal is to help people to realise their dream of becoming professionals and to be able to contribute to the development of the sector through their know-how (via green practices, technology, local technical expertise, etc.) by making a relevant, significant contribution to society.

This is also possible thanks to our teachers and tutors, professionals who bring their experience and knowledge to offer the learner the best vocational solution. Thanks to the knowledge and skills learnt, the trainee will be able to confront every challenge that he/she is faced with, working within rules and requirements to achieve the client's objectives.

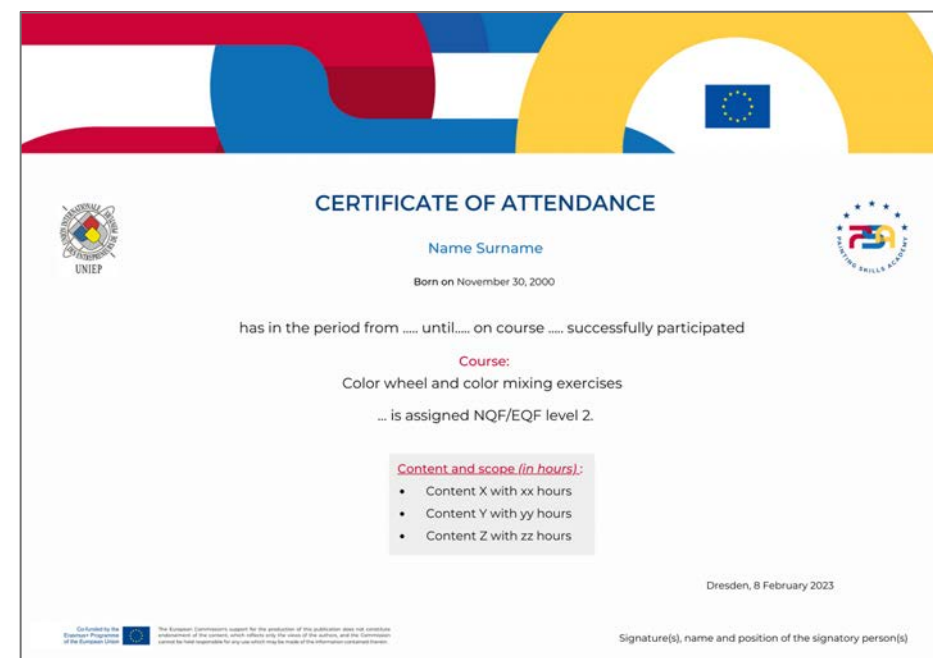

Finally, as the sector is constantly developing, PSA provides continuous research on the latest painting techniques as well as an analysis of the evolution of products to reduce the environmental impact of the profession, enabling the perfection of creative excellence in the sector.

The goal will not only offer professional work according to the standards required in each country but improve the quality of life of both the tradesman and the client emphasising the importance of the safety and welfare of everyone.

Certification

PaintingSkillsAcademy Certification

The PaintingSkillsAcademy is aimed at people who would like to start training, those who wish to learn skills from other countries and workers who want to further their skills and career. Our training providers offer courses which are approved and certified by UNIEP.

Thanks to PSA, it will be possible to provide vocational qualifications, ranging from level 1 to level 6 of the European Qualifications Framework (EQF), which provides transparent assessment criteria. Thus, it supports the employability and professional development of qualified, highly skilled and mobile Painters in the European labour market.

All the institutes collaborating with PSA share the same values and standards and put the student's needs at the centre of their education.

PSA Courses

PaintingSkillsAcademy presents a variety of courses, depending on the training needs of students.

One or multi-day workshops are available, or if you need a professional certification you can opt for specialised courses offered by training institutes across Europe.

Career opportunities

PaintingSkillsAcademy offers dedicated coaching, excellent career opportunities, high-quality vocational training and works for customised placement in Europe.

In fact, after years of practice and study, being able to work in the sector you like, should not only be a possibility but a reality. PSA, through its wide network of PSA professionals, allows young people to complete their studies through direct contact with entrepreneurs and companies giving them a concrete opportunity to pursue their careers through apprenticeships and internships.
